## THE GERMAN SUMMER SCHOOL

The German Summer School is the next best thing to a trip to Germany. Spend a week immersed in the German language and culture, in a relaxed environment with like-minded people.

Our experienced teachers – all native German speakers – will kick off each day by guiding you through intensive tuition in speaking, listening, reading and writing. Different levels cater to all participants, from those with a basic level of German language competency through to those with advanced knowledge. You will have plenty of opportunities to practise your German during our hands-on afternoon program. Look forward to learning German in an interactive setting with special interest groups, creative workshops, cultural activities and excursions.

## VENUE AND ACCOMMODATION

The Summer School will be held at the Southern Cross University in the renowned resort town of Coffs Harbour. The modern and attractive campus is located close to the ocean on the New South Wales mid-north coast and offers excellent accommodation, well-equipped classrooms, a friendly café and a number of sports facilities. Our program also takes advantage of the area's beautiful beaches and great holiday facilities.

Participants will feel right at home in the state-of-the-art, self-contained four bedroom apartments. Each unit has its own fully equipped kitchen, bathroom and generous living area with TV. Every bedroom has a telephone and, if required, internet access.

## LANGUAGE CLASSES AND WORKSHOPS

We offer 3 units of tuition at all levels from elementary to very advanced which are designed to improve your communication skills in listening, reading, speaking and writing. This will be consolidated in the special interest groups offered in the afternoon on:

- **Photography**
- **Cooking**
- **Music** and more...

## SPECIAL WORKSHOP

This year's special guest from Germany is Michael Legutke, co-author of the brand new publication *Deutsch. Lehren. Lernen*. In a workshop designed especially for teachers, Michael will focus on the central role of the teacher in the language classroom, and guidance for professional development.
