Please don't think you need to be an active Profiler to attend a refresher. The title of the event says it all, it's about you having the opportunity to get back into the swing of Profiling.

NB RCPT's who have trained CP's, please forward this to your people as they are most welcome.

Registration:

Unfortunately I am not able to assist with travel or TRS as there are no funds available.

Registration Fees: 1 day = \$100.00 / 2 days=\$200.00 includes catering and resources

Unless notified otherwise, your school will be invoiced and direct debited for your registration costs.

Any cancellations occurring after:

Friday 1st March for the Brisbane refresher

Friday 8th March for the Hervey Bay & Cairns refresher

Friday 26th April for the Townsville refresher

or no-shows at the Refresher will still be charged the full registration fee.

Attendance Options:

You have a couple of options in relation to attending this conference, either one or both days are available. I would encourage you to attend both days to fully experience the benefits of a Classroom Profiling Refresher Course.

Outcomes for the 2013 refresher course are:

- To meet other Profilers from across Queensland to find out what they are doing and how they utilise their skills.
- Discuss ways to enable Profiling to become a part of the 'culture' of the school/s you work in.
- Review Profiling techniques, refine Profiling skills including reflection techniques.
- Discuss changes to the Classroom Profiling website and update on the database program.
- Discuss the Profiling sheets.
- A look at the data base for collating data. (Bring along a laptop if you can and/or a USB memory stick.
- Find out what EQ is up to in relation to Classroom Profiling and RCPT and what is happening in 2013 and beyond, in relation to ESCM (Essential Skills for Classroom Management), SWPBS (school Wide Positive Behaviour Support) etc.

RSVP:

*****Registration for Brisbane closes Friday 22nd February 2013*****

*****Registration for Hervey Bay closes Friday 1st March 2013*****
