

Apple Professional Development

Learning with iPads

Mobile devices like iPads, iPhones and iPods allow learning to take place in a range of contexts and environments. A huge range of apps are available to support students in their literacy needs...but how do we find the best apps and learning experiences for our diverse students? This workshop will give you the answers!

Explore the potential of iPad to help transform teaching and learning in your classroom.

Hear from an Apple Education Trainer on practical ways to integrate technology for curriculum delivery. Workshop content is aligned to the Australian Curriculum and teachers will be able to access a range of resources to help create and curate content for the classroom.

How can educators integrate technology into teaching and learning? The SAMR Model will provide you with a practical framework for the classroom to support you to get the best possible learning experiences for your students.

Learning Outcomes from Workshop include:-

- ★ Personalise your iPad to make it the optimum device for you
- ★ Using accessibility features
- ★ Managing in a classroom environment
- ★ Use multitasking gestures to efficiently navigate
- ★ Understanding the SAMR model to move beyond substitution on the iPad
- ★ Understand the workflow to create an epub using a range of apps including:-
 - Book Creator
 - Inspiration Maps
 - Tellagami

A certificate showing 3 hours of professional development will be provided.
