

Integrating
iPads
— into your —
CLASSROOM
For Learning Support
and Special Ed

Helping you make informed
apps and technology choices
for your students!

***The iPad has turned even experienced
technology users into beginners again!***

So much to learn. How do you make the BEST app choices when there are over 500,000 to choose from? How do you successfully embed iPads within your learning support programs? How are they best used in special ed classrooms and for students with autism?

So many questions! Join the Spectronics Consultancy Team in Cairns on Monday 11th March 2013 to answer many of these questions and more for you! They are all Apple Certified Trainers and have been working with apps and iPads from the time of their release in Australia and New Zealand in 2010! Added to the teams' experience is the fact that they have many years of experience in supporting implementation of pre-iPad learning support and special ed technologies too. So they understand where iPads fit within the technology toolkit for your classroom. And are keen to share their expertise with you in this information-packed workshop!

**FREE
ADDED BONUS!**

Meet Your Presenters

Greg O'Connor

Greg has been actively involved in supporting the learning of people with diverse learning needs for over 30 years. During this time he has worked as a classroom teacher, school executive, district consultant and regional manager with the New South Wales Department of Education and Training, Australia. Greg's areas of interest and expertise include supporting people with complex needs, challenging behaviours and autism, and literacy support technologies for people with diverse learning needs.

He is passionately committed to the use of inclusive and instructional technologies to support the learning of ALL students in school and post school settings. Greg presents at national and international conferences, provides training and consultancy across Australia, New Zealand and South East Asia, and is the Professional and Consultancy Services Manager at Spectronics.

Amanda Hartmann

Amanda is a Speech Pathologist with over 14 years' experience. She has worked within educational settings, and currently divides her time between her busy private practice and as an Inclusive Technology Consultant with Spectronics www.spectronics.com.au. Amanda has recently been made a member of the Apple Consultants Network and is an official Proloquo2go trainer www.assistiveware.com/amanda-hartmann. She has a special interest in supporting and developing communication, literacy and learning for a wide range of diverse learners, often through the use of visual tools, sign language and technology. She is passionate about providing interactive and engaging presentations to educators, parents and therapists. Amanda is also the State coordinator for Key Word Sign/Makaton in Queensland.
